

# Juris® 4.1 Software and Juris® Suite 4.1 Software is Now Available!

We are pleased to announce the launch of Juris 4.1, a new and improved version that has refined and enhanced the capabilities of LawPay, the fully integrated online payment processing solution introduced in Juris 4.0.

Juris 4.1 continues to boost the quality and usability of the software through functionality upgrades in payment and receipt handling for Juris and Juris Suite, as well as improvements to the user login experience and over 25 customer reported issues.

We will continue to provide a streamlined financial management solution to optimize profitability for our customers.

## Product Enhancement Summary

- Improved functionality for common operations
- Bank account selection within Cash Receipts
- Login screen improvements
- Hot key for lookup within Client/Matter and Vendor inquiries
- LawPay links accessible within Juris Suite
- Resolutions to 29 Customer Reported Issues

## Before you install

**IMPORTANT:** If you are currently on version 3.0+ and have enabled Online Payments (previously known as ClientPay), please contact customer support to assist on the transition to the new integration.

Be sure to do the following before installing the Juris® 4.1 and Juris Suite® 4.1 release:

- Perform a complete backup of your data files and documents used in the Juris software.
- Close Juris and all open applications on your computer.

## What's new in this release?

The following features and enhancements are new:

### Improved functionality for common operations

- Account Description available on the Other tab within Cash Receipts.
- Invoice numbers visible under Payment voucher batch details.
- Juris will now retain your screen settings for Journal entries.
- The “Enable Online Payments” selection boxes can now be found on the Code tabs for Clients and Matters.

### Bank account selection within Cash Receipts

- Selecting bank accounts for cash receipts deposit is now possible.
- “User is allowed to change Bank Account deposit” permission can be enabled or disabled per user.

### Login Screen Improvements

- Juris will now remember your user ID at the login screen.
- A CAPS notification will now show on the screen to inform you when the CAPS lock is on.

### Hot key for lookup within Client/Matter and Vendor inquiries

Pressing **F5** within Client/Matter or Vendor inquiry will open the respective Lookup screen without having to click on the ellipsis (...).

### LawPay links accessible within Juris Suite

- LawPay links viewable in Client/Matter Inquiry.
- Online Payment links can also be added to Collection letters.

## Addressed Issues

The following client-reported Juris issues have been fixed in the Juris 4.1 release:

List of Addressed Issues in Juris 4.1	
239786	Clients - Unable to Tab to Originating Timekeeper field and type over %

45708	Vouchers - Scroll Bar is inactive in G/L distribution after the Voucher is posted.
252539	Juris Suite Version 4.0-General Ledger Trial Balance Detail & Summary reports drill down showing blank

## Known Issues

The issues described below are known to exist in the applications and may be resolved in a future release. This is an ongoing list of known defects identified from prior versions.

List of Known Issues in Juris 4.1	
242342	Time Entries - Editing office address breaks ability to post time entries in Juris.
241221	Billing Edit Prebills - Summary Bill Including Fee Details
239780	Non-Explorer view - Must click on list before typing to automatically jump to client in list
235481	Time Entries - No limit warning dialog shown when more than 200 entries are available in Time Entry Adjustment Search
227747	Validation Export - Copitrak or interwoven formatting issue in .txt exports
227725	Matters - Closed date is updated with current time stamp when creating new matter
222533	Prebills - Expense entries are not being pulled into a prebill when it's an all-expense bill containing multiple offsetting positive and negative expense entries.
222088	Select prebills - Object Variable Error thrown after adding a Fee Recap to a bill layout
222065	Client/Matter Inquiry - Out of Memory Error when viewing Archive Bills
44653	Juris Spreadsheets - Amount fields are not immediately editable when you tab into them. Temporary Resolution: Double-click or backspace over cell to allow editing.
44655	Unpost Bills - Read-only fields seem to allow editing on screen, although no changes are saved.
44656	Expense Entries - Normal Batch - error occurs after selecting matters with certain locked status from the client/matter lookup.
44659	Juris Validation Export - Splash screen has black bands superimposed on text.
44662	Juris Management Console - Database options print when detaching a database.
44663	Juris Management Console - Error occurs running Verify.
44664	Juris Management Console - Prints Verify options when clicking Next.
44665	Juris Management Console - Prints the Shrink Database options after hitting next.
44666	Juris Management Console - Shrink - Error occurs when shrinking database. Temporary Resolution: Perform action using SQL Server Management Studio.
44667	Juris Management Console - ABA codes imported to the database do not appear in the tables.
44673	Print Bills - Some types of file attachments do not print.
44676	Cash Receipts Activity Report - Text can overlap the first entry if there are subsequent entries for AR and PPD.

## List of Known Issues in Juris 4.1

44677	Print Bills - Expense attachment files print for expense entries that are over the attachment limit if those expense entries aren't over the limit but are summarized.
44679	Print Bills - The number of copies of the expense attachment files can be incorrect if the matter has multiple addresses and some addresses are selected not to print.
44682	Print Bills - Attachments - Expense attachment files print for entries that are marked off or suppressed.
44686	Juris Management Console - Database-Devices - Cannot delete any Backup Devices. Temporary Resolution: Delete device using SQL Server Management Studio.
44693	Screen Settings - Text, buttons, and screens are cutoff when using larger DPI. Temporary Resolution: Change DPI to smaller settings.
44694	Juris Bill Format Update Utility - An error occurs if user selects ellipses on Client or Matter lookup. Temporary Resolution: The codes can be entered manually by typing them.
44699	Expense Adjustments - Entries that are on a prebill cannot be deleted though an expense adjustment batch. Temporary Resolution: Entries can be deleted in Edit Prebills or in the expense adjustment batch, once prebill is deleted.
44702	Juris Management Console - Report displayed when function is complete is blank except for database names.
44703	Vendor Inquiry - Vouchers may load slowly when loading more than 3000 vouchers.
44712	JurisBX Utility - The utility must be in Juris\Bin directory to run. Temporary Resolution: A shortcut can be made on the user's desktop to run the utility, so user does not have to locate it in the bin directory.
44718	Time/Expense Entries - F9 key is not duplicating the matter code from prior entry. Temporary Resolution: User can use the auto-duplicate feature to duplicate the client/matter codes.
44730	Log in - When a backup is required, user's flag is not cleared after trying to sign in.
44736	Bill Designer - Object reference error occurs when display mode is changed on the Fee/Expense Edit Box or the Expense Summary Detail section.
44740	Navigation - When in browser view, you must click on code in a window before you can start typing letters to navigate through the codes.
44744	Bill Designer/Bill Printing - Fields overlap if fields exist below the expense detail summary section when edit box used.
44745	Payment Vouchers - Note field on expense distribution can sometimes be incorrectly updated when saving subsequent vouchers.
44750	Reports - Print Trailer Page option is not being retained for a user.
44754	Checks - An error occurs if there are two text type fields on the same line as repeating voucher detail fields.
44791	Client/Matter Inquiry - Unable to view archived bill if no fields appear on the Bill Format component.
44794	Permissions - Edit Prebills - Time entries may be deleted even though user does not have permission required to create adjustments or direct batches for time entries.
44801	Time Adjustments - Unable to find time entries when search by date and date of entry are the same as Through date and values in HH:MM:SS.

## List of Known Issues in Juris 4.1

44803	Post Bills - Out of Balance OOB created with excess fees discount when entries have 0 hours billed.
44804	Reports - Billing Projection - Entering a cut-off date can clear the selected Billing Month.
44805	Reports - Report sorting is affected by CAPS versus no CAPS in Sort order field of timekeeper.
44806	Tables - Vendors - Unable to remove default G/L account.
44809	Timekeepers - Added timekeepers can exceed license by having Employee as User first.
44823	Notecard Utility - Error running notecard utility with large amounts of notecards.
45727	Payment Vouchers - Attachment is deleted when trying to undo a delete on an expense distribution form.
45729	Quick Check - Payment Vouchers - An error occurs if user arrows up or exits a new voucher form when focus is on the invoice amount after change amount. Temporary Resolution: Tab out of the field before using the arrows.
46036	Bill printing - Border options for a field do not print properly.
46046	Time Entries - The end of the date field accepts a period.
46076	Cash Receipts - The maximum amount of PPD/Trust/Other tab is limited to 9,999,999.99. Temporary Resolution: Break the amount up into separate entries.
46078	Close Accounting Year - Out of memory error can occur after closing multiple years in a row. Temporary Resolution: Close Juris after closing three years in a row, then sign in again and continue.
46092	Bank Reconciliation - Does not show chosen G/L account on Reconcile Entries
64740	Prebill - Prebill Change Log - Change date format
64786	Unpost Bills - Cannot unpost bill if have negative/positive fees to net to zero.
65187	Bill Designer - Retaining prior format name when import more than one format and issue with Cancel as result.
65450	Import Time Entry - Not importing amount properly when formatted with \$.
66313	Time Entries - Duplicate Narrative showing up in multiple time entries.
66475	C1NumericEditEx - Issue with typing over fields and INSERT and DEL functions.
67070	Bill Designer - Not properly showing how number field is formatted for debit and credit.
67071	Bill Designer - Properties changing values when copy from one section and paste to another.
85719	Time Entries - Issues sorting on Status column when have lots of batches.
103741	Matters - Error editing Originating/Billing Timekeeper when have open date of 01/01/1900.
103867	Billing - Payment showing multiple times in Itemized Payment Subsection if have the same date as bill.
130318	Juris - Journal Entries - Cannot post Reversing entries in closed year if no unposted batch exists in that period
163314	Vouchers - Cannot remove voucher from check batch or void if has quotes " in Reference/Memo
163355	Sub Accounts - Retained Earnings account messes up if set Separator set a decimal/period

## List of Known Issues in Juris 4.1

164004	Conflict - No results found screen going behind other screens hence seems locked up
164370	Edit Prebills - Cannot properly view prebill with lots of entries
164475	Edit Prebills/Juris Suite - changing status of entry not on prebill to On Prebill after adding new time/expense entry if dated prior to today's date
164662	Juris/Juris Suite - Update Data synchronization between Juris and Juris Suite and within applications
165177	Spell Check - double clicking suggested word doesn't insert the correction
165444	Bill Designer - Error when change from twips to inches and enter margin value
165962	Billing - Prebills/Bills - Showing payment since last bill in order of the ledger history. Ledger history actually shows the order things were done so can be confusing for does not go by date
